“ *She was a good loving mother and person . I love and miss my mother truly so very much . Times like these are hard especially when you lost the only parent that you’ve known and who carried me for 9 months . I remember the good and the bad but I know that outweighs the bad . I just wish things could’ve just been better between us . She was always at work and me , I was always working on road ot close to home just wish we could’ve done alot more and had fun but we did just wish I could get my mother back .*
